

Neonatal Kits *by NeoMed, Inc.*

NEOMED, INC. OFFERS A FULL LINE OF SPECIALTY PROCEDURE KITS, INCLUDING CATHETERIZATION TRAYS, URINARY COLLECTION KITS AND DRAINAGE CATHETERS AND LUMBAR PUNCTURE KITS AND NEEDLES

Our unique focus on the special needs of the Neonatal patient yields products that help produce the best possible clinical outcome at an economical cost.

NeoMed's Catheterization Tray product is designed to provide all the necessary instrumentation critical for UAC/UVC insertion and cut-downs in a compact tray. Our unique Micro-Iris Forcep is preferred by physicians and practitioners more than any other instrument available from any supplier. In addition, our kit includes a fenestrated NeoDrape® which is designed to maintain full patient visualization and allow radiant warming during the procedure.

When a septic work-up is necessary, the NeoMed Lumbar Puncture Kits and Needles are the answer. Several features of our kits include: A Quinke style needle constructed with a clear hub for visualization and kits built with 4 specimen vials all contained in a compact tray.

NeoMed offers the most complete line of Urinary Collection Kits and Drainage Catheters on the market today. When it is necessary to measure urinary output, the NeoMed Urinary Drainage Kit is the answer. The clinician may choose among our offerings of 3.5Fr, 5.0Fr, 6.5Fr and 8.0Fr kits.
